Project/Work: Data Analytics Tool

Summary of Activities in the last week:

- Exploring kind of the data to be analysed and removing redundant data is continued
- There are multiple ways to receive the data automatically and editing automatically correct data into data base. It is still to be decided which method to be adopted efficiently
- Code review for data analytic app has been done from the GIT source

Goals and objectives for next week:

- After Code review some changes are required to be done in the code base along with code owners
- A method to be adopted for efficient data collection with auto editing.
